

## Micrometer Adjustable Applicators

The blade of this applicator can be accurately adjusted by means of 2 micrometric screws, from 0 to 5 mm, in 10µm increment. Suitable for various precision tests, e.g. research tasks. 4 widths available. These applicators uses magnetic blades, operator can pull and plug directly, easy to clean. Furthermore, these blades are made of stainless steel hardened by special technology, more wearability and corrosion-resistant greatly extend the life of applicators.
